

Institutional efforts/initiatives in providing an inclusive environment i.e. tolerance and harmony towards cultural, regional, linguistic, communal, socio-economic and other diversities

University has rich socio-cultural diversity in its campus. Its employees as well as students come from varied socio-economic backgrounds and from all parts of the country. To ensure inclusiveness and equity, university works on various platforms. There is a rich tradition of celebrating various festivals in the campus specially hostels. Different hostels celebrate different festivals so that all the festivals are celebrated. Students organize cultural programmes on teacher's day. It reflects this diversity and it also encourages participation of local students.

*Yuva Utsav is a mega event for students to show their talents. Yuva Utsav is organized each year which brings out the talent of students and also give them an opportunity to showcase local culture in the national context. It helps in the promotion of National integration through its various activities in the campus. It includes various competitions in song, drama and dances. It also brings harmony among students of different colleges and University Departments.

Induction Programs, Fresher's Party, Alumni Meet are celebrated separately in the teaching departments.

* Various seminars and lectures are another way to celebrate this diversity focused on issues of different communities. They are organized to spread the message and awareness of harmony and national integration.

This day is celebrated each year to commemorate the discovery of the Raman Effect by Prof. C. V. Raman. On this occasion, many competitions were organized like Poster Competition, Open Quiz and Presentation on the Indian Eminent Physicists.

International Year of Millets

As we all know that 2023 will be observed as the International Year of Millets after India’s proposal to the Food and Agricultural Organization (FAO) was approved. As per Our Prime Minister Narendra Modi, India needs to work on the Millets revolution in order to ensure a nutritious diet and good health. On this path Department of Physics, Barkatullah University, Bhopal organized a one day program for the same on 11th January, 2024. The aim of this program is to provide detailed information on Millets in India. Prof P. K. Purohit from NITTTR, Bhopal, delivered an expert lecture on the same. Students have learnt about the background of millets, types of millets in India, advantages and government schemes supporting millet production in India.
